Complex Discharge: A Case Study

https://us02web.zoom.us/meeting/register/tZYsfu2urj8iHdfIBRJcMnMIME_HP1MwuPxX

11:00 AM - 12:00 PM PST

Overview

Complex case discharge delays, also known as bed blocking or bed delays, are a longstanding and growing challenge for hospitals across the nation. Legacy Health is experiencing these delays in our acute care facilities. At any given point in time there are 100+ patients who no longer require acute care but are unable to safely discharge. Legacy Meridian Park Medical Center stood up a transitional care unit to accommodate these patients until a safe discharge could be achieved. In 6 months, this unit has served over 100 patients and saved Legacy Health over 1000 acute care patient days. The unit has further reduced the cost of care for these patients (annualized \$950K savings) and created a safe environment until safe discharge could be arranged.

Objectives:

- 1. Describe 3 key criteria of patients appropriate for a complex discharge unit.*
- 2. Discuss outcome measures to determine success of a complex discharge unit.*
- 3. Evaluate the feasibility of a complex discharge unit within their workplace.*

Presenters

Melinda (Mel) Stibal, MSN, MBA, Vice President/Chief Nursing Officer, Legacy Meridian Park Medical Center

1 CE Available

A valid RN license is required along with attendance and completion of the post event CE survey. Continuing Education Provider approved by the California Board of Registered Nursing, Provider #17495

Strategic Career Planning

<https://us02web.zoom.us/join/zoom/register/tZEvdOivrT0tGdyFLc6oy-ZMTv8C7H65clh9>

11:00 AM - 12:00 PM PST

Overview

This presentation provides practical methods of applying strategic principles to career planning. It assists the learner in developing a proactive approach to experience and exposure to opportunities that will prepare them for advancement into leadership roles and positions.

Objectives:

Clearly define and discuss strategic planning concepts.

Apply strategic planning concepts in a sample career planning process.

Voice a graduated understanding of competency development for advancement.

Presenters

Kimberly C. Long, DHA, MSN, FNP, RN, LNC, FACHE. CEO, Association of California Nurse Leaders

Building a Resilience Program - A Case Study

<https://us02web.zoom.us/meeting/register/tZMpdOyvqD8oHNJyThBLKTP6YphHh35pjtsj>

11:00 AM - 12:00 PM PST

Overview

There are numerous programs at Seattle Children's that are designed to provide support for organization staff members. These were managed by separate units and sometimes overseen by different leaders. The program was reorganized to report to one leader, and an overarching evaluation approach was implemented. This presentation will review the various programs, the reorganization process, and the use of tools that focus on engagement, recognition and support to build resilience in staff, patients and families.

Objectives:

- 1. Participants will identify the foundational elements for building resilience.*
- 2. Participants will describe the linkages between engagement, recognition and support as they relate to resilience.*
- 3. Participants will identify the importance of measuring interventions in order to guide the program.*

Presenters

Ann Moore RN-BC MSN, Director of Resilience and Connections, Seattle Children's Hospital

1 CE Available

A valid RN license is required along with attendance and completion of the post event CE survey. Continuing Education Provider approved by the California Board of Registered Nursing, Provider #17495
